

Service of K-LOVE to this community is of utmost importance to all ages,& race, it covers all nationalities and brings us together as one. To displace this group or to single this group out as it looks as if the FCC is trying to do with LPFM is of great concern to many. The service provided at this time by K-LOVE is outstanding quality and involves the public of a plethora of changes internal and external. The community as a whole is watching what is going on in this area, and at this time in our history.

Thank You.
